

Alkalizer

Innovative Reverse Osmosis

***Complete
Water Purification***

PH 7.5 to 9.5

***Super Efficient
Reverse Osmosis***

Why Buy Alkalizer

Minerals

- Minerals added back in after Ro takes out everything from your water.
- 2 stages of remineralization
- The Alkalizer filter has a proprietary mineral blend developed by water treatment experts with over 75 years of combined experience. It was developed to address the growing health concerns associated with RO water.

Assembly

- Every Alkalizer RO is MADE IN THE USA.
- We only use the highest quality components.
- Our production team has many years of experience.
- Every RO is tested for leaks and water quality before it leaves the factory.
- Don't be fooled by cheaper RO's for sale online. It is not worth a small amount of money now to deal with a large leak later

What It Removes

Material	% Rejection	Material	% Rejection
Aluminum	98-99	Magnesium	96-98
Ammonium	86-92	Mercury	96-98
Arsenic5	88-96	Manganese	95-98
Barium	96-98	Nitrate	60-75
Bicarbonate	90-95	Nickel	60-75
Bromide	87-93	Phosphate	98-99
Cadmium	96-99	Potassium	98-99
Calcium	94-97	Selenium	94-97
Chloride	93-97	Silicate	85-90
Chromate	86-98	Silver	93-96
Copper	98-99	Sodium	87-93
Cyanide	86-92	Strontium	96-98
Ferrocyanide	98-99	Sulfate	98-99
Fluoride	87-93	Sulfite	96-98
Iron	95-98	Thiosulfate	98-99
Lead	96-98	Zinc	98-99

We Have Your Faucet

603 Series Faucets

905 Series Faucets

888 Series Faucets

The Green Membrane

- Only wastes 25% of the water of a normal RO
- Saves money and helps the environment
- Newest technology on the market for conserving water
- Same great quality as a normal membrane

Activated Carbon

Gives water the final polish for great taste

KDF 55

Offers extra protection against bacteria and viruses

Calcite

Brings RO water PH back to equilibrium

Mineral Blend

Gives you the healthy minerals back the RO removes with special blend

Stages of Filtration

- 1. Pre Sediment Filter:** traps sediment including rust and dust
- 2. Pre Carbon Filter:** removes chlorine and other chemicals
- 3. 50 GPD Membrane:** standard and High efficiency membranes both available. Removes most chemicals, microorganisms, sediment and salinity
- 4. Calcite filter :** water drips through the filter after it is produced by the membrane for maximum mineral adsorption
- 5. Alkalizer:** the final filter before water travels to the faucet

Clear Ice Cubes

No-More Bottles

- **Convenient**
- **Safe & Healthy**
- **Tastes Great**

Model

Description

Comments

GRO50-ALK

All the benefits of the original Alkalizer combined with the newest "GREEN" water saving membrane technology on the market. 1 gallon wasted for every 1 gallon produced. (standard RO 4-1)

This RO is for the customer that doesn't mind spending a little more to help the environment.

RO5-ALK

The original Alkalizer, 5 stage RO with 50 gpd membrane made with the highest quality components.

A great system that will work for most households, small and large.

ALK-2512

Larger filter offers more minerals with all the same great benefits

Alkalizer Plus is for people that want that extra mineral boost or just drink lots and lots of water.

Five Year Warranty

All drinking water systems are warranted for a period of 5 years from the date of purchase. This warranty is offered by the manufacturer and your distributor may offer additional warranties. Any defective parts must be returned to the manufacturer for coverage. This warranty does not cover labor charges incurred outside the factory for removal, installation or repair. This warranty does not include filter replacement.

(Complete Warranty in Owner Manual)
